

Risk Assessment						
	Risk Matrices					
	Likelihood					
Impact		Negligible	Minor	Major	Hazadous	Castrophic
	Very Unlikely					
	Unlikely					
	Moderate					
	Likely					
	Very Likely					
	Risk	Statement	Response	Objective	Likelihood	Impact
	RSI	My wrists could be aching	treat the symptoms and identify an alternate way of continuing with work	keep my wrists safe for the future by taking regular break and maintaining good posture	Very Unlikely	Minor
	Electricity in the neighbourhood goes down	The progress of my project would be halted due to having to find other means	Find an alternate working location to continue with the project	Regularly save work and identify an alternate location to work at with electricity	Unlikely	Major
	A solar storm occurs	Takes down the internet and all power for humanity. I would be unable to continue working on the project altogether	Aid humanity in rebuilding infrastructure	Acceptance of the outcome	Very Unlikely	Catastrophic
	My laptop from 2015 could breakdown	I would lose all of the current progress	Buy an new laptop, install all the necessary applications and start the project from scratch	make to commit code to GitHub as much as possible	Moderate	Hazadous
	Not using the time efficiently to finish the project	I would be unable to fulfil the MVP	Make sure to keep focused and use time outside of the course hours to get up to speed	turn off any distractions and set time limits for completion	Likely	Catastrophic
